

Introducing the Vivid E95

Advanced Echocardiogram Ultrasound System, now at Cardiac Services

Engineered for advanced 2D, 4D, and colour flow imaging, the Vivid E95 delivers high-fidelity image reconstruction with superior contrast and resolution — bringing a new level of precision to structural cardiac diagnostics.

Our echocardiography suite

CLINICAL CAPABILITIES

— Heart Failure Assessment

Automatic ejection fraction calculation reduces user error for HFrEF and HFpEF.

— Cardiomyopathy Care

Evaluates hypertrophic and diabetic cardiomyopathies.

— Valvular & Coronary Disease

Expert pre- and post-intervention assessment.

— Advanced Strain Tracking (AFI)

Detects early-stage heart failure with preserved ejection fraction (HFpEF).

— Cardio-Oncology

Provides precise monitoring during cancer treatments.

— Bubble Studies

Accurate detection of interatrial shunts before and after closure device placement.

OUR SONOGRAPHERS

Kate Wilkinson

Senior Cardiac Sonographer

Over two decades of experience across New Zealand's public and private sectors. Holds a Bachelor of Science and a Postgraduate Diploma in Medical Ultrasound and has worked in major teaching hospitals in Australia and the UK. Kate has served as an examiner for the Diploma of Medical Ultrasound (2016–2022) and the MRT Board (2020–2024).

Juliet Jensen

Cardiac Sonographer

Holds a Diploma in Medical Ultrasound (Cardiac) and brings over 30 years' experience at Waikato DHB. Juliet has trained numerous students and registrars within the public hospital system, ensuring patients receive the highest standard of care.

Echocardiogram Cost: \$750.00 (this may be subject to change)
